\*The Landslide Hazard Areas map is based on the definition of landslide hazard area as adopted by Amended Ordinance No. 15-034 on September 10, 2015, and effective November 1, 2015. Data sets including elevation values, slope angles and steep slopes over 30 % were utilized in the creation of this map. Limitations on available geologic data may affect the accuracy of the map. Therefore, landslide hazard areas depicted on this map need to be verified. Please contact Planning & Development Services Permit Center at (425) 388-3311 for help to verify if your property is within a landslide hazard area and to determine which regulations apply to your property.

To determine which regulations apply to properties within shoreline jurisdiction, please refer to SCC 30.67.060(1), which provides: "Critical areas located within shoreline jurisdiction are subject to the regulations contained in chapters 30.62A, 30.62B and 30.62C SCC as adopted by Amended Ordinance No. 06-061 on August 1, 2007 and Amended Ordinance No. 07-005 adopted on February 21, 2007, except as modified by SCC 30.67.060(2)." These regulations can be found on the PDS website. Please contact Planning & Development Services Permit Center at (425) 388-3311 for help in determining if your property is within a shoreline jurisdiction area and to determine which regulations apply to your property.
